## **PART 1 – SECTION C – DESCRIPTION/SPECS/WORK STATEMENT**

### **PERFORMANCE WORK STATEMENT DC-10 PILOT/FLIGHT ENGINEER QUALIFICATION TRAINING**

#### **C.1 PROJECT/TITLE**

Air Carrier Aircraft Pilot Training for Flight Standards Operations Inspectors and Aircraft Certification pilots employed by the Federal Aviation Administration (FAA).

#### **C.2 BACKGROUND**

Under Title 49 of the United States Code (49 U.S.C.), the FAA is authorized to acquire and expend funds for the acquisition, operation, and maintenance of aircraft as necessary in the exercise and performance of the powers and duties of the Administrator. The interests of the public, the safety of the workforce, and the credibility of the organization are best served by having qualified, proficient, and current inspectors conducting pilot evaluating, testing, and checking functions.

#### **C.3 SCOPE**

The contractor is to provide initial and recurrent ground school, and simulator to FAA inspectors/pilots in the applicable aircraft specified in schedule B. Student quotas for these courses will be assigned by the Flight Standards Service Training Division, AFS-500 or Aircraft Certification Service – Planning and Program Division AIR-500. The courses covered under this contract will meet the requirements for FAA formal flight training. FAA formal flight training consists of training courses with agency level course numbers that will be officially recorded in the employee's personnel records.

#### **C.4 DEFINITIONS**

The following definitions are used to define the terminology contained herein and are applicable as required by Title 14 of the Code of Federal Aviation Regulations (14 CFR):

1. **Flight Time:** Time from the moment the aircraft first moves under its own power for the purpose of flight until the moment the aircraft comes to rest at the next point of landing (block to block time).
2. **Flight Simulation Training Device (FSTD):** A full flight simulator (FFS) or a flight training device (FTD).
3. **Full Flight Simulator (FFS):** A replica of a specific type, make, model, or series aircraft. It includes the equipment and computer programs necessary to represent aircraft operations in ground and flight conditions, a visual system providing an out-of-the-flight deck view, a system that provides cues at least equivalent to those of a three-degree-of-freedom motion system, and has the full range of capabilities of the systems installed in the device as described in (14 CFR) Part 60 and the qualification performance standard (QPS) for a specific FFS qualification level.

4. Flight Training Device (FTD): A replica of aircraft instruments, equipment, panels, and controls in an open flight deck area or an enclosed aircraft flight deck replica. It includes the equipment and computer programs necessary to represent aircraft (or set of aircraft) operations in ground and flight conditions having the full range of capabilities of the systems installed in the device as described in (14 CFR) Part 60 and the qualification performance standard (QPS) for a specific FTD qualification level.

Crew Concept: When one inspector/pilot is receiving pilot-in-command (PIC) training in a simulator/training device, the other inspector/pilot shall receive second-in-command training or flight engineer training (if applicable). When one inspector/pilot is receiving PIC training in the left seat of an airplane flight deck the other inspector/pilot shall receive observer time (flight deck seating permitted). No additional charge shall be made for the presence of, or instruction provided to, such additional FAA inspector/pilot.

6. Approved Training Program: The contractor's FAA approved training course to include a (14 CFR) Part 121 or Part 135 training program, a (14 CFR) Part 141 training course outline, or a (14 CFR) Part 142 course. The contractor must provide documentation of approved training program by submitting one of the following items: a signed approval letter from the Principal Operations Inspector who approved the training program, the approved course syllabus, or the training specifications paragraph authorizing the training course.

## **C.5 APPLICABLE DOCUMENTS**

FAA Order 4040.9D dated 12/4/1991 or as revised and available for download, in pdf format, from **[www.faa.gov](http://www.faa.gov)**

## **C.6 GENERAL REQUIREMENTS**

### **1. GENERAL**

(a) If the contractor's FAA approved training program contains less than the minimum required hours of Part I, Schedule B, of this solicitation, the contractor is required to supplement their approved program with additional ground school/simulator/flight training, as appropriate, to achieve the minimum required hours. Such additional training shall cover systems and procedures or be otherwise directly related to the successful completion of the type rating or proficiency check. If the contractor's approved training program contains more hours than the minimum stated in Part 1, Schedule B, then the contractor must submit the training hours in

their approved training program. In either case, the contractor is requested, within the limits of their approved program, to delete company-specific training such as employee/customer relations, filling out company forms, evacuation training, company communications, or other items not directly related to the completion of the aircraft training and substitute training directly related to the successful completion of the type rating or proficiency check.

(b) The FAA will make every effort to enroll two or three pilot/inspectors per class. This will allow concurrent training at the Captain and, as appropriate, First Officer and/or Flight Engineer positions during simulator periods. The contractor is required to furnish two instructors per simulator period; one for the pilot positions, and one for the engineer position. It should be noted that the minimum required simulator times are per pilot/inspector in the Captains position (Left Seat). For example, during recurrent training, a requirement of 6 hours simulator time per inspector/pilot would mean a total of 12 hours of simulator required for a two inspector/pilot class. If the FAA sends less than three (3) pilots to training, it is expected the pilots will rotate between the Left Seat and the Flight Engineer position. When the FAA enrolls one inspector/pilot per class, it is expected that additional supplementary training may be required. Supplementary training must be approved in advance on a case by case basis by the Contracting Officer. All simulator time is considered "wet", consisting of the simulator and the required complement of instructors required by the contractors approved training program or required by the PWS. This is to include the hours used for any flight check.

(c) Training of FAA inspectors/pilots is not to be conducted between the hours of midnight and 6:00 a.m., including simulator/flight pre and post briefings. A maximum of four hours simulator/flight instruction per day or eight hours of ground school per day per inspector class is permitted. If ground and flight instruction are combined in a single day then a maximum of ten hours of training per day is permitted. To maintain continuity between simulator/flight training sessions, the contractor is requested to minimize the switching of simulator/flight instructors between sessions.

(d) FAA personnel do not ordinarily operate the aircraft in which they are rated on a regular basis. Therefore, it is necessary that they receive the most complete review possible when attending recurrent training. If the contractor's approved program allows for a partial review of systems and procedures during successive recurrent training periods, it is required that the contractor supplement their approved program to achieve a complete review for FAA inspectors/pilots during each recurrent course.

(e) FAA personnel are usually performing other job functions prior to assignment to training and normally do not have time to devote to pre-course study. Additionally, due to circumstances beyond the control of the FAA or the inspector/pilot, an inspector/pilot may be assigned to training with short notice. If the contractor's approved program requires pre-course study prior to the trainee's arrival at the contractor's training facility, the contractor is required to supplement their approved course to allow for required pre-course study to be accomplished at the contractor's facility after the inspector's/pilot's arrival. Such ground instruction must either be classroom or computer based training.

(f) If the contractor's approved training program is specific to an all-cargo aircraft configuration, the contractor is required to supplement their approved program with ground instruction covering differences with a passenger carrying configuration of the aircraft. Similarly, when the contractor's program is specific to an all passenger configuration, the

contractor is required to supplement their program to cover differences with all-cargo configurations.

(g) Pilots/inspectors enrolled in the initial course under this solicitation will meet the requirements of (14 CFR) Part 61.157 for initial type certification totally in a full flight simulator without restriction. The contractor's approved training program must allow unrestricted initial type rating training and checking in the simulator without aircraft flight time under this regulation.

(h) When this solicitation requires simulator training, at a minimum it must be conducted in a FAA approved level C full flight simulator (FFS). The contractor may utilize an approved level 6 or 7 flight training device (FTD) or a level A, B, C, or D FFS for required FTD time. Any level FTD time may be substituted for the minimum required ground school time. Flight Simulation Training Device pre/post briefing may be considered as ground school training. The contractor's approved training program must allow any substitutions the contractor makes.

(i) Inspectors/pilots attending training under this contract should present the contractor with a copy of FAA Form 4040-2, Pilot Flight Record and Application for Check Flight, signed by the inspector's supervisor. If the form is presented, the contractor's instructor, training center evaluator (TCE), or the FAA inspector administering a practical test or an instrument proficiency check shall complete the form and return it to the inspector.

## **2. QUALIFICATIONS**

### **(a) INITIAL PILOT / FLIGHT ENGINEER QUALIFICATION:**

The contractor shall provide the aircraft and/or full flight simulator, and training necessary to enable the FAA inspector/pilot to pass the practical test to Airline Transport Pilot (ATP) standards (PTS) for a type rating on subject airplane, in accordance with applicable (14 CFR) Part 61 requirements, the contractor's FAA-approved training program, and the terms and conditions provided herein. Additionally the contractor will provide the full flight simulator training to enable the FAA inspector/pilot to obtain a flight engineer rating.

Types of training shall include the following categories:

Flight Simulation Training Device and flight training shall conform to the principle of "Crew Concept."

Types of training shall include the following categories:

1. Recurrent pilot/flight engineer ground school and;
2. Recurrent pilot/flight engineer full flight simulator training when all training is to be conducted in a full flight simulator or;
3. Recurrent pilot/flight engineer flight training when all flight training is to be conducted in an aircraft.

**(c) SUPPLEMENTARY TRAINING HOURS:**

The Contracting Officer may authorize hours in addition to those specified under Initial and Recurrent Pilot Qualification training when required by the individual inspector/pilot to successfully complete type rating practical tests or proficiency checks. These hours shall be provided at the prices set forth in the item entitled "Supplementary Training Hours", Part I, Schedule B. In the event that any inspector/pilot passes the applicable test(s) in less time than the hours indicated in Schedule B, or partially completes training, the contractor shall be paid the rate stated, less a pro rata credit for the unused time at the supplementary rate.

**(d) DIFFERENCES TRAINING:**

When required, the contractor shall provide all training necessary to operate a variant aircraft of the same make and model as the referenced aircraft in accordance with the contractor's approved training program and the terms and conditions provided herein. Reference Section C. Scope.

Types of training may include any of the following categories:

Flight and FSTD training may be integrated with ground school training if it is a part of the contractor's program.

(c) Ground school instruction shall be presented by a qualified instructor in a classroom environment. If Computer-Based Instruction (CBI) is used to accomplish ground school training then the following requirements shall be met:

(1) Inspectors/pilots shall receive a thorough briefing on the operation and use of the CBI equipment.

(2) At least one instructor shall be present or readily accessible by electronic means to resolve any problems or questions that the inspector/pilot may have regarding the material presented in the CBI program.

(3) All material presented by CBI shall be reviewed and reinforced by a qualified instructor in classroom discussion or one-on-one with the inspector/pilot.

(d) Upon scheduling an FAA inspector/pilot for training the contractor shall contact their FAA certificate holding office in order to arrange for the applicable check to be given by an FAA inspector qualified in the aircraft. The contractor shall make the applicable FSTD or aircraft and appropriate personnel available for the purpose of administering the check(s) required. If the contractor's FAA certificate holding office is unable to provide a qualified inspector for the required check(s), the contractor shall immediately notify the Contracting Officer's Technical Representative (COTR).

(e) In the event the FAA inspector/pilot fails to report for training as scheduled, or should become ill, injured or incapacitated during the training period the contractor shall promptly notify the COTR and the inspector/pilot's emergency contact if known.

(f) If the inspector/pilot has not passed the applicable pilot practical test or proficiency check after completion of the training outlined in Schedule B and in accordance with the specifications herein, the contractor shall withhold further training and promptly notify the COTR who will arrange the authorization of additional training. In the event such inspector/pilot does not complete the full course provided for in the schedule, the contractor shall invoice the FAA for only that pro rata portion of training actually completed per Paragraph F (2)(c) of this PWS and as certified on the Certificate of Training (Appendix A).

(g) The contractor shall notify the COTR of the inspector's/pilot's completion status within 5 working days after completion of the training program.

(a) Should the aircraft/simulator intended for training purposes under this contract become unavailable, the contractor shall review all available aviation-related sources to acquire a replacement aircraft/simulator. Competition shall be sought to the maximum degree possible. The contractor shall make all reasonable efforts to acquire a replacement aircraft/simulator within 45 days of the date that the original training aircraft/simulator became unavailable. If the contractor is unable to acquire another aircraft/simulator that is acceptable for flight training, the contractor shall notify the contracting officer and furnish the same with a written summary of:

- (1) the contacts made by the contractor in seeking a replacement aircraft/simulator, and
- (2) the responses to inquiries made by the contractor.

(b) The inability of the contractor to acquire a replacement aircraft/simulator, following the exhaustion of all reasonably viable sources, shall be regarded as beyond the control of the contractor and not due to negligence on the part of the contractor, and will not be a basis for termination of the contract for default. If this situation does occur, the Government will have the following options:

(1) Continue the contract with ground school and simulator training at the rates specified in Part I, Section B, less all costs associated with the flight portion of the training (e.g., aircraft/simulator rental/lease, flight instructor, etc.).

(2) Terminate the contract for convenience in accordance with AMS 3.10.6-1, Termination for Convenience of the Government (Fixed-Price) as applicable in Part II, Section I. Termination for convenience due to aircraft/simulator unavailability shall not be a basis for claims for compensation other than that already owed to the contractor for training completed prior to termination.

This excludes conditions or situations which are the sole responsibility of the Government, loss or damage resulting from improper aircraft maintenance by the Government, defects in Government-owned aircraft, or failure of Government-owned and maintained equipment arising from Government negligence, action, or inaction.

**3.1.7-6 DISCLOSURE OF CERTAIN EMPLOYEE RELATIONSHIPS (JUL 2009)**

(a) The policy of the FAA is to avoid doing business with contractors, subcontractors, and consultants who have a conflict of interest or an appearance of a conflict of interest. (b) The contractor must provide to the Contracting Officer the following information with its proposal and must provide an information update within 30 days of the award of a contract, any subcontract, or any consultant agreement, or within 30 days of the retention of a Subject Individual or former FAA employee subject to this clause:

- (d) The contractor must incorporate this clause into all subcontracts or consultant agreements awarded under this contract and must further require that each such subcontractor or consultant incorporate this clause into all subcontracts or consultant agreements at any tier awarded under this contract unless the Contracting Officer determines otherwise.
- (e) The information as it is submitted must be certified as being true and correct. If there is no such information, the certification must so state.
- (f) Remedies for nondisclosure: The following are possible remedies available to the FAA should a contractor misrepresent or refuse to disclose or misrepresent any information required by this clause:

- (1) Termination of the contract.
- (2) Exclusion from subsequent FAA contracts.
- (3) Other remedial action as may be permitted or provided by law or regulation or policy or by the terms of the contract.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders issued by facsimile, email or other electronic commerce methods are considered "issued" when the Government sends the order. Orders may be issued orally only if authorized in the contract.

### **3.2.4-17 ORDER LIMITATIONS (OCT 1996)**

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than one class, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor-

- (1) any order for a single item in excess of ten classes.
- (2) any order for a combination of items in excess of the estimated annual quantity; or
- (3) a series of orders from the same ordering office within 60 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 10 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

### **3.2.4-19 REQUIREMENTS (OCT 1996)**

(a) This is a requirements contract for the supplies or services specified and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the "Schedule" are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the "Schedule" and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the "Schedule" that are required to be purchased by the Government activity or activities specified in the "Schedule."

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the delivery date required by order(s) placed within the ordering period.

**3.2.4-35 OPTION TO EXTEND THE TERM OF THE CONTRACT (APR 1996)**

- (a) The Government may extend the term of this contract by written notice to the Contractor prior to the expiration of the current term of the contract; provided, that the Government shall give the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option provision.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 42 months.

**3.3.1-11 AVAILABILITY OF FUNDS FOR THE NEXT FISCAL YEAR (APR 1996)**

Funds are not presently available for performance under this contract beyond period of performance. The FAA's obligation for performance of this contract beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the FAA for any payment may arise for performance under this contract beyond period of performance, until funds are made available to the Contracting Officer for performance and until the Contractor receives notice of availability, to be confirmed in writing by the Contracting Officer.

**3.3.1-33 CENTRAL CONTRACTOR REGISTRATION (JAN 2008)**

- (a) Definitions. As used in this clause

**"Central Contractor Registration (CCR) database"** means the primary Government repository for Contractor information required for the conduct of business with the Government.

**"Data Universal Numbering System (DUNS) number"** means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

**"Data Universal Numbering System +4 (DUNS+4) number"** means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts for the same parent concern.

**"Registered in the CCR database"** means that the Contractor has entered all mandatory information, *including the DUNS number or the DUNS+4 number, into the CCR database.*

- (b) (1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in Representations, Certifications and Other Statements of Offerors Section of the solicitation, the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

- (c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

- (1) An offeror may obtain a DUNS number

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://fedgov.dnb.com/webform>; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

- (2) The offeror should be prepared to provide the following information:

- (i) Company legal business.
- (ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

- (iv) Company Mailing Address, City, State and ZIP Code (if different from physical street address).

- (v) Company Telephone Number.
- (vi) Date the company was started.
- (vii) Number of employees at your location.
- (viii) Chief executive officer/key manager.
- (ix) Line of business (industry).
- (x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer may proceed to award to the next otherwise successful registered offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g) (1)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in AMS Procurement Guidance T3.10.1.A-8, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to:

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims. Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov/> or by calling 1-888-227-2423, or 269-961-5757.

### **3.3.1-36 AVAILABILITY OF FUNDS - OPTION PERIODS UNDER A CONTINUING RESOLUTION (APR 2008)**

Due to the possibility of the enactment of a continuing resolution in lieu of an annual appropriation, full fiscal year funding may not be available for an entire contract option period. In the event of a continuing resolution, FAA will only be liable for an amount based on the time period specified by the continuing resolution. The amount of funds made available by the continuing resolution will be specified by subsequent modification. CFR 471.14 and subpart 9.4. Such other sanctions or remedies may be imposed as are provided by 29 CFR part 471, which implements Executive Order 13496 or as otherwise provided by law.

(f) Subcontracts. (1) The contractor shall include the substance of this clause, including this paragraph (f), in every subcontract that exceeds \$10,000 and will be performed wholly or partially in the United States, unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 3 of Executive Order 13496 of January 30, 2009, so that such provisions will be binding upon each subcontractor.

(2) The contractor shall not procure supplies or services in a way designed to avoid the applicability of Executive Order 13496 or this clause.

(3) The contractor shall take such action with respect to any such subcontract as may be directed by the Secretary of Labor as a means of enforcing such provisions, including the imposition of sanctions for noncompliance.

(4) However, if the contractor becomes involved in litigation with a subcontractor, or is threatened with such involvement, as a result of such direction, the contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

**3.2.2.7-7 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (JAN 2010)**

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that

(i) The Offeror and/or any of its Principals-

(A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ☐ have not ☐ within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws or receiving stolen property; and

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision a)(1)

(i)(B) of this provision.

(D) Have [ ], have not [ ], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples-

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(b) The Offeror has [ ] has not [ ] within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(1) 'Principals,' for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions). THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER SECTION 1001, TITLE 18, UNITED STATES CODE.

(c) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

- (d) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this SIR. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (e) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (f) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this SIR for default.

Each offeror shall, as a minimum, provide a copy of Section B with prices completed for each CLIN in Section B, for the base year and all option years. Proposals, whether initial or revised submissions, which have unrealistically low prices may be grounds for elimination from further competition on the grounds of the offeror's failure to comprehend contract requirements. The offeror shall describe any assumptions used to develop the proposed prices. The Government anticipates receiving competitive proposals. However, the Government reserves the right to request cost or pricing data and/or information other than cost or pricing data to establish the reasonableness of the proposed prices after receipt of proposals. #### **CLA.2710 NOTICE TO OFFERORS OF AVAILABILITY OF FUNDS (JAN 1997)**

The purpose of this provision is to put offerors on notice that funds are not presently available for this procurement. Offerors are hereby notified that this solicitation may be canceled. If funds do not become

available, the Government will not be liable for any proposal preparation costs if this solicitation is canceled. Offerors will prepare proposals at their own risk. The request must include documentation that fully highlights the offeror's proposed changes and must be specific as to the exact term(s) or condition (s) to which the exception(s) are being taken. These changes shall not be binding on the FAA until fully agreed to by both the FAA and the offeror and incorporated into the document prior to contract award.

**PART IV - SECTION M - EVALUATION FACTORS FOR AWARD**

---

**M.1 BASIS FOR CONTRACT AWARD**

This acquisition will utilize Lowest Price Technically Acceptable (LPTA) source selection procedures in accordance with AMS, *Source Selection Mandatory Procedures*. Technical tradeoffs will not be made and no additional credit will be given for exceeding acceptability. Award will be made to the acceptable offeror with the lowest evaluated price, which is deemed responsible and whose proposal conforms to the solicitation requirements. The solicitation requirements include all stated terms, conditions, representations, certifications, and other information required by Section L of this solicitation.

As set forth in AMS 3.2.2.3-19 Contract Award (July 2004), the Government reserves the right to award without discussions. Therefore, each initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. Be advised that the competitive range, if required, may be reduced for purposes of efficiency pursuant to AMS 3.2.2.3. Upon receipt of proposals, the Government will conduct an initial evaluation. The Government may conduct communications with offerors whose exclusion from or inclusion in the competitive range is uncertain. Communications shall not provide an opportunity for any offeror to revise its proposal.

**M.2 NUMBER OF CONTRACTS TO BE AWARDED**

The Government intends to select one contractor for the Pilot Training acquisition. Multiple awards will not be considered. However, the Government reserves the right not to award a contract at all, depending on the quality of the proposals and prices submitted and the availability of funds.

**M.3 REJECTION OF UNREALISTIC OFFER**

The Government may reject any proposal that is evaluated to be unreasonable or unrealistic in terms of program commitments, including contract terms and conditions, or unrealistically high or low in cost/price when compared to Government estimates, such that the proposal is deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

**M.4 CORRECTION POTENTIAL OF PROPOSAL**

The Government will consider, throughout the evaluation, the "correction potential" of any deficiency or uncertainty. The judgment of such "correction potential" is within the sole discretion of the Government. If an aspect of an offeror's proposal not meeting the Government's requirements is not considered correctable, the offeror may be eliminated from the competitive range.

**M.5 EVALUATION METHODOLOGY**

Technical acceptability will be evaluated on all offers. Only those offers determined to be technically acceptable, either initially or as a result of discussions, will be considered for award. Then, price will be evaluated and the proposals will be listed from lowest to highest price based on the total evaluated price. Award will be made to the lowest evaluated priced proposal meeting the acceptability standards for the non-cost factors.

**M.6 COMPETITIVE RANGE DETERMINATION**

During the evaluation process multiple competitive range determinations may be made that eliminate Offerors from the competition. A competitive range determination may eliminate Offerors based on their initial proposal evaluation results, after discussions (if necessary), prior to issuance of the Final Proposal Revision request or for efficiency. If Offerors are excluded from the competitive range they may request a debriefing IAW AMS 3.2.2.3.

**M.7 EVALUATION METHODOLOGY**

Technical acceptability will be evaluated on all offers. Only those offers determined to be technically acceptable, either initially or as a result of discussions, will be considered for award. Then, price will be evaluated and the proposals will be listed from lowest to highest price based on the total evaluated

price. Award will be made to the lowest evaluated priced proposal meeting the acceptability standards for the non-cost factors.

### **M.8 AWARD DECISION**

The award decision will be made as follows:

- (1) Step One – Determine Technical Acceptability. The technical evaluation provides an assessment of the offeror's capability to satisfy the Government's requirements. The Government will evaluate all technical proposals received by the required date/time. Each Technical evaluation factor will receive a rating of acceptable, reasonably susceptible of being made acceptable, or unacceptable. If any factor is rated "unacceptable", the entire proposal is rendered technically unacceptable, and the proposal will be removed from competition. Proposals deemed technically acceptable (either initially or as the result of discussions) will only be considered for award. The ratings are defined in the following paragraphs.
  - (a) Acceptable: The proposal meets all the minimum mandatory requirements in the solicitation identified as technical evaluation factors. Only those proposals determined acceptable, either initially or as a result of discussions, will be considered for award. Once deemed acceptable, all technical capability proposals are considered to be equal.
  - (b) Reasonably susceptible of being made acceptable: The proposal does not meet all the minimum mandatory requirements in the solicitation identified as technical evaluation factors; however, there is reason to believe that through minor revisions an acceptable proposal could result. For award without discussions these proposals are considered "unacceptable."
  - (c) Unacceptable: Fails to meet all the minimum mandatory requirements in the solicitation identified as technical evaluation factors. Proposals with an unacceptable rating will not be considered for award.
- (2) Step Two – Evaluate Price. The offeror's Price proposal will be evaluated, for award purposes, based upon the total price of all CLINs (0001 through 0009) in Section B. The Cost/Price proposal will be reviewed for completeness and accuracy of the offeror's price calculation and price analysis will be conducted to determine realism, and reasonableness. Reasonableness will be based upon that overall evaluated price. Proposals (whether initial or revised submissions) which are unbalanced may indicate Offeror's failure to understand contract requirements. A summation of the CLIN total price (unit price \* quantity), and government estimated CLIN(s) (where provided) should be identified to reflect the total contract price for the base year, and each option year period. The total evaluated price will consist of the total of the Base Year period and Option Year periods One (1) through Two (2). If reasonableness of price is not determined through price competition, then the FAA may require the review of rationale and supporting data to establish the reasonableness of proposed price(s).
- (3) Step Three – Award Decision. Award will be made to the lowest priced, technically acceptable offeror, subject to a positive responsibility determination and conformance of the offeror's proposal to the terms and conditions of the solicitation

### **M.9 EVALUATION FACTORS**

The following evaluation factors will be used to evaluate each proposal. Award will be made to the Offeror proposing the lowest price, technically acceptable offer based upon an integrated assessment of the evaluation factors. All Technical Evaluation Factors 1 through 5 must all obtain an "acceptable" rating in order for the proposal to be considered for award. Award will be made to the acceptable offeror with the lowest evaluated price, which is deemed responsible and whose proposal conforms to the solicitation requirements

Any offeror whose Technical Proposal does not address all Evaluation Factors will be considered ineligible for award. Award will be made to the lowest price, technically qualified offeror based on the following evaluation criteria:

**FACTOR 1: THE OFFEROR MUST PROVIDE EVIDENCE OF THEIR FAA APPROVED TRAINING PROGRAM.**

CRITERIA: Evidence of a training program as described in section D (2) of the Performance Work Statement (PWS).

ACCEPTABLE: The standard is met when the offeror provides their signed list of approved courses from the Principal Operations Inspector who approved their 14 CFR part 141 training course outline.

**FACTOR 2: THE OFFEROR MUST PROVIDE PROOF OF THE OWNERSHIP OF THE FULL FLIGHT SIMULATOR TO BE USED IN TRAINING OR DOCUMENTED CONFIRMATION OF A LEASE AGREEMENT THAT COVERS THE ENTIRE TERM OF THIS CONTRACT.**

CRITERIA: Evidence of ownership or lease of the full flight simulator to be used in training.

ACCEPTABLE: The standard is met when the offeror is able to provide proof of the ownership of the full flight simulator to be used in training or documented confirmation of a lease agreement that covers the entire term of this contract.

**FACTOR 3: THE OFFEROR MUST PROVIDE A DESCRIPTION OF THEIR TRAINING AIDS AND FACILITIES THAT MEET THE REQUIREMENTS OF THE SOLICITATION.**

CRITERIA: Evidence of available resources to support requirements of Section F.3.(i)(1) through (15) of the PWS for each course proposed. **Note: Holders of Part 142 certificates need not submit this information.**

ACCEPTABLE: The standard is met when the offeror is able to provide a description of the availability of training aids and facilities required to meet the PWS and solicitation requirements.

**FACTOR 4: THE OFFEROR MUST PROVIDE PROPOSED TRAINING HOURS TO MEET REQUIREMENTS OF THE SOLICITATION.**

CRITERIA: Proposed Training Hours to meet the training requirements outlined in Section F(1)(a) of the PWS and schedule B.

ACCEPTABLE: The Standard is met when the offeror provides proposed training hours to meet the requirements in sections F(1)(a) of the PWS and schedule B.

**FACTOR 5: THE OFFEROR MUST PROVIDE THE PROPOSED NUMBER OF TRAINING DAYS EXPECTED TO BE REQUIRED TO COMPLETE ALL TRAINING AND TESTING FOR EACH COURSE.**

CRITERIA: Proposed number of training days to complete all training for each course proposed.

ACCEPTABLE: The Standard is met when the offeror provides the number of training days expected to be required to complete all training for each course proposed.

**M.10 SOLICITATION REQUIREMENTS, TERMS, AND CONDITIONS**

Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as factors or sub-factors. Failure to comply with the terms and conditions of the solicitation may result in the offeror being ineligible for award. Offerors must clearly identify any exception to the solicitation terms and conditions and must provide complete supporting rationale.
